For Newark: Rain or snow;
colder tonight; Wednesday fair.

VOLUME 75—NUMBER 95. NEWARK, OHIO, TUESDAY EVENING, MARCH 4, 1913. TEN CENTS A WEEK.

WOODROW WILSON INAUGURATED TODAY AS THE 28TH PRESIDENT OF THE UNITED STATES

IMPRESSIVE INAUGURAL OF FIRST DEMOCRATIC EXECUTIVE IN 20 YEARS

Deafening Cheers Greet New President as Oath of Office is Administered by Chief Justice White of the U. S. Supreme Court

WHITE HOUSE LUNCHEON FOLLOWS ADDRESS

Mammoth and Brilliant Parade Witnessed from White House Reviewing Stand—Capital Filled With Immense Throng to Witness the Inaugural Ceremonies—Ex-President Taft Left This Afternoon for Augusta, Ga.

Washington, March 4.—Woodrow Wilson became president of the United States today amid imposing ceremonies and tumultuous scenes of popular greeting. Standing at the historic east front of the capitol he took the constitutional oath of office and in his brief inaugural address, made a fervid appeal to all patriotic men for counsel and aid.

"This is not a day of triumph," he declared. "It is a day of dedication. Here must not the forces of party but the forces of humanity. Men's hearts wait upon up. Men's lives hang in the balance. Men's hopes call upon us to say what we will do. Who shall live up to the great trust? Who dares fail to try?"

"I summon all honest men, all patriotic, all forward looking men to my side. God helping me I will not fail them if they will but counsel and sustain me."

Vice President Marshall had been inaugurated in the Senate chamber only shortly before and at the conclusion of President Wilson's inaugural address, the party hurried back to the White House, ahead of the inaugural procession, where Mr. Taft said goodbye to President Wilson and prepared to leave at once for Augusta, Ga. President Wilson shortly afterward took his place to review the procession.

A storm of cheers greeted the ending of President Wilson's speech at 1:40. W. J. Bryan was the first man to shake hands with the president. He then shook hands with Mr. Taft.

The Wilson cabinet on the stand included all but James C. McReynolds, the new attorney general, who had been unable to be present.

President Taft, who sat with a good-natured smile on his face as the crowd surged about, burst into a hearty laugh when some one yelled, "Where is Teddy?" It was 1:34 o'clock when Chief Justice White stepped forward and the party arose while President Wilson raised his hand and took the oath of office.

Mrs. Wilson, seated upon a lower level, climbed upon a chair at the edge of the platform and peered up at her husband as he repeated the oath of office after Chief Justice White.

Her daughter Margaret pulled another chair forward and joined her. As President Wilson began his inaugural address Mrs. Marshall joined them and together they peered over the railing.

While President Wilson was delivering his address the first van load of the Wilson family's belongings reached the White House from Princeton. There were 7 trunks, 11 suit cases, 11 umbrellas and several walking sticks.

There also reached the White House a large cake which graced the Wilson dinner table last evening. It was surmounted by a brown donkey and a purple elephant.

President Wilson's voice at first failed to carry into the crowd, but as he raised it he secured close attention, which he held throughout the reading of his address.

Vice President Marshall took his oath of office from the rostrum of the Senate chamber at 12:34 and at 12:35 the Senate adjourned sine die.

PRES. WOODROW WILSON.

LOWER HOUSE ADJOURNS AFTER PASSING SUNDRY APPROPRIATION BILL

Washington, March 4.—The house, after passing the sundry appropriation bill, adjourned sine die at 12:04. The Senate was then still in session. The president vetoed the sundry civil appropriation bill, carrying \$113,000,000, because of its provision which prohibited the department of justice from using its anti-trust appropriations in prosecution of labor unions and farmers' organizations.

The vote was 270 to 50 on the re-passage. Senate leaders do not believe an effort will be made to re-pass the bill in the upper body. The president signed the bill creating a department of labor, with a cabinet portfolio.

Three big supply bills were agreed to by the house and Senate conferees today. They were the omnibus building bill, carrying appropriations for federal buildings in Ohio, West Virginia and Kentucky, and the naval appropriation bill, providing for one new battleship, and the sundry civil appropriation bill.

Delay in Senate.
The delay in the Senate's adjournment held back the inauguration of Mr. Marshall fully a half hour and delayed Mr. Wilson's as much.

Senator Poinsett delayed the Senate adjournment to make a speech calling attention to the disorderly scenes which attended the suffrage parade yesterday and declared that there should be an investigation of the Washington police before any more money was appropriated for it.

Just before the house adjourned, Speaker Clark called former Speaker Cannon to the chair and an affecting farewell one took place. Speaker Clark said he violated no confidences in saying: "I could have been sworn in as vice president of the United States, if I had wanted to, but I preferred to stay with you."

Three miles west of Alexandria, and are well known in the community. The dead girl is succeeded by her parents, two brothers and one sister.

DESPONDENT GIRL HANGS SELF TO BED

Miss Blanche Kason, 22 years, daughter of Mr. and Mrs. Emmett Kason of Alexandria, committed suicide about 1 o'clock Tuesday afternoon by hanging herself, at her home near the village.

Miss Kason had been ill for some time and on occasions would show signs of despondency. However, she never intimated that she thought of suicide as a means of ending her suffering. On Tuesday she was bright and cheerful and seemed to be feeling unusually well. However, shortly after 1 o'clock, her brother missed her, and on going to her room was startled to find her lifeless body hanging to the bed post. She had not been dead long, as the body was still warm.

The sad incident came as a great shock to her family and many friends. The family lives about two miles west of Alexandria, and are well known in the community. The dead girl is succeeded by her parents, two brothers and one sister.

VICE-PRES. THOMAS G. MARSHALL.

LEGISLATURE MAY ADJOURN FRIDAY, APR. 4

Columbus, O., March 4.—Following out Governor Cox's plan for early adjournment, a bill will be introduced in the legislature today providing for an adjournment sine die April 1. According to the resolution the general assembly would recess March 21 to March 31. A week's session would then be held to finish up business. It is said only important administration bills will be given attention and the house will hereafter hold two sessions, Tuesdays, Wednesdays and Thursdays. The liquor license bill, agricultural commission bill and possibly taxation bill, will be the only ones considered.

NEW GOVERNOR DECLARES FOR EQUAL RIGHTS

Charleston, W. Va., March 4.—Henry H. Hatfield was inaugurated governor of West Virginia today, succeeding William E. Glasscock. In his inaugural address the new governor surprised his most intimate friends by declaring himself for women's suffrage. In these words: "I solicited the support of the good women of West Virginia and beg them to say here that I am an advocate of woman's suffrage and that the time is near at hand when they will be accorded the same privileges at the ballot box as the male voters have today in West Virginia."

RED TAPE IS DELAYING FRIEDMANN

New York, March 4.—Whether Dr. Friedmann will be allowed to make a demonstration of his tuberculosis treatment in this city rests with the board of health, he announced today. He has been forbidden to practice here by the board of censors of the New York Medical Society without a special license, and this he indicated he had applied for.

EVIDENCE WAS INSUFFICIENT

Saturday afternoon Wm. Sprague of Alexandria had a warrant issued charging Earl Baker, a section man at that place, with cohabiting unlawfully with the former's daughter, Abbie, aged 19. Marshal Joe Shipley of Granville arrested Baker at Alexandria and his hearing occurred Monday afternoon before Mayor Swartz. There was not sufficient evidence to convict Baker and he was discharged. The Sprague girl, it is alleged, is living at the Baker home in Alexandria.

A Boston scientist, Prof. A. J. Henshaw, claims to have discovered a cure for leprosy.

HOODLUMS INSULTED MARCHERS

In Suffragist Parade and Washington is Ablaze With Indignation

100 PEOPLE IN HOSPITAL

With Bruises and Broken Bones—Congress to Investigate Washington Police Force Because of Near Riot.

Washington, March 4.—A resolution for the investigation of the Washington police force because of the near riot during the suffrage parade yesterday was offered in the Senate today by Senator Jones and referred at once to a committee. Senator Nelson declared the scenes attending the parade constituted a most disreputable affair and a disgrace to the police force.

Representative Hobson of Alabama of the House, charged that the police did not properly protect the women in the parade and declared that he would ask Congress to investigate the police department at the extra session. Hobson said he was informed that a ruffian climbed into a float and insulted a woman.

Chief Sylvester of the Washington police declared today that the inability of his force to manage yesterday's spectators was not due to any wilful neglect of duty by any of the men. "I gave the suffragists the same protection that will be afforded the inaugural parade. What is needed it a larger force here," he said.

Suffragists are preparing to press before the incoming Congress their demands for a thorough investigation of the lack of protection extended to them during their parade yesterday.

The ordeal through which the marchers passed, however, gained for them many new sympathizers and many supporters in places where they had not looked for converts.

Both official and civic Washington is ablaze with indignation at the treatment of the women, which virtually scandalized the national capital.

Had it not been for the opportune appearance of the cavalry in the height of the crush of yesterday it is very possible that a heavy toll of life might have been exacted.

As it is there are more than 100 persons in the hospitals today who are suffering from broken limbs and other injuries sustained in the crush of the uncontrolled mob.

Miss Inez Milholland, herald of the procession, distinguished herself by aiding in riding down a mob that blocked the way and threatened to disrupt the parade. Another woman member of the petticoat cavalry struck a hoodlum a stinging blow across the face with her riding whip in reply to a scurrilous remark as she was passing.

The mounted police ride hither and yon but seemed powerless to stem the tide of humanity.

A group of hoodlums gathered in front of the reviewing stand in which sat Mrs. Taft and Miss Helen Taft and half dozen invited guests from the White House. They kept up a running fire of caustic comment.

Apparently no effort was made to remove them, and, evidently disgusted, the White House party left before the procession had passed to its halting and interrupted journey toward Continental hall, where a mass meeting was held.

PROMOTED AFTER ASSASSINATION OF LATE PRES. MADERO

Mexico City, March 4.—Major Cardenas, who was in charge of the escort of Francisco Madero and Jose Pino Suarez on the day they were killed, was today promoted from the rural guard to the same rank in the regular army.

WHAT IS IT?

What former president?
Answer to Monday's puzzle—Stirrup.

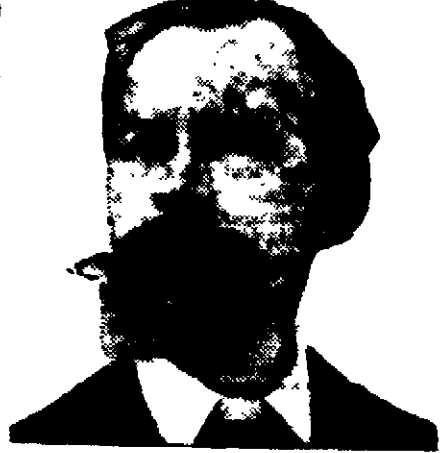

A Staple Medicine For All Families

From Infancy to Old Age a Reliable Family Laxative is Most Needed—Try This One.

It is inconceivable in this day of general intelligence that any family would be without a simple remedy for the minor ills of life, for often by giving such a remedy in time a serious disease can be frustrated and a life saved.

For example, if at the first sign of a cold a simple laxative- tonic like Dr. Caldwell's Syrup Pepsin were given the beginning of a serious lung affection or of a typhoid fever might be avoided. And also in headaches, nervousness, etc., a small dose of this remedy would relieve the congestion and replace distress with comfort. Mothers give it to tiny infants and little children, and grown people take it with equally good effect.

Thousands of good American homes are never without it, among them the home of Dr. Geo. T. Hull, Prop. Hull Drug Co., Prue, Okla. Dr. Hull has for a number of years recommended Dr. Caldwell's Syrup Pepsin in his practice and writes that "for stomach and bowel disorders, worms in children and a general laxative- tonic it has no equal." Syrup Pepsin saves the health of the family, and it saves doctor's bills. It is a guaranteed cure for any form of stomach, liver and bowel trouble, constipation, indigestion, biliousness, gas on the stomach, headaches, drowsiness after eating, etc. Have no hesitancy about giving it to any

DR. GEO. T. HULL

member of the family, however young or old, for it contains nothing injurious to the youngest person. A bottle can be obtained at any nearby drug store for fifty cents or one dollar. The latter size is more economical and is bought by those who have already convinced themselves of its merits. Syrup Pepsin users learn to discard pills, salts, cathartics and purgatives generally as they are too great a shock to any average system.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

ON SECOND THOUGHT.

If you are an important factor in your community, your neighbors will say you are overrated.

The only distinction a good man; men are able to achieve is that of being "agin" the government.

While the returns are small, frequently pays a woman better than the man for whom she gives it up.

The theory that women defy analysis is upheld by the fact that the trained nurse often marries the man she has attended through a long illness.

Tank Beverly, who spent his vacation in Colorado, says the fact that Pike's Peak was discovered should occasion no surprise.

Another fallacious theory is the one to the effect that a boil is worth \$5.

Any girl can look like a princess at 19. It is looking like a princess at 35 that resolves itself into a difficult feat.

There still are a good many men whose idea of chivalry is to permit the wife to get the divorce.

If the plans are carefully adhered to, a \$2000 house can be built for \$3500.

Wanda Kelly, the telephone girl, and Grace Robertson, the governor's wife, the moment they are in danger of being crushed by the machine.

"You see," says Wanda Kelly, "there are just we two women, and we have to fight that crowd."

Wanda Kelly is seeking a means to protect Grace Robertson's name from becoming involved in a ruinous scandal. Though she is a mere slip of a girl, almost inexperienced in the world's ways, she copes victoriously with her antagonists. To accomplish their purpose, the politicians must get the story of this scandal on the floor of the house before the close of that night's session. They are pressed for time. In interfering with their telephone conversation, by "breaking the connection" and then pretending ignorance as to a certain number (which would betray the woman's name), Wanda Kelly manages to gain sufficient time to thwart their whole scheme.

Grace Robertson, the woman in the case, is played by Miss Barney; Marjorie Wood takes the part of the telephone operator, Wanda Kelly. Other members of the cast are Jas. Seeley, Howell Hansel, Austin Webb, Hallett Thompson, Hugh Dillman, Peter Raymond, Homer Granville, Kalman Matus, Frank Austin and others.

"The Woman" comes Friday, March 4. Seats go on sale tomorrow.

The Hazenbeck-Wallace Circus. If you did not go to the Auditorium last night you missed the first circus performance of the season and perhaps one of the best. The Hazenbeck-Wallace Circus in motion pictures proved to be one of the best things of the kind ever seen in Newark, in fact it is a most wonderful picture and must have taken a good many days to get it in its present form.

Everything was there to be enjoyed, the parade, putting up the tents, the menagerie, acrobatic acts, trained animals of all kinds, excellent riding, daredevil racing, aerial acts and the wonderful sight of seeing elephants in bathing in a river with their trainers, which is seldom seen with circuses. The performance, which takes about an hour and fifteen minutes to present, is well worth while, and if you haven't seen these pictures you are certainly going to witness them tonight. They will be shown continuously from 6:30 to 10:30 and should be seen by everyone.

Carrie Webber in "Busy Izzy." Carrie Webber, leading the feminine portion of the company presenting "Busy Izzy" at the Auditorium Saturday, March 4, matinee and evening, is cast for the role of an Italian organ grinder. She looks the part and she acts it to the point of perfection.

One would imagine that Miss Webber was a native of the land of the macaroni to hear her patter. She is one of the cleverest of comedienne and the audience seem to forget everyone else when she is in the limelight.

It is a mighty easy matter for a stage favorite cast in a similar role to give so much abandon to the parts as to approach the line of suggestiveness. This has marred the work of many a talented comedienne whose field of endeavor has risen

above the burlesque boards. Miss Webber avoids anything like this. There is nothing to give offense in either her singing or her dancing. In this respect she follows George Sidney, one of the few impersonators of the Hebrew who does not libel the race or smirch good work by vulgar wit. There will be a bargain matinee at 25c, and 50c. The seat sale opens Thursday at 9 a. m.

"The Littlest Rebel." If you think all dramas are alike go to the Auditorium on March 13 and see "The Littlest Rebel"—it is different. It is exciting and thrilling, just as most dramas are, but it has a different appeal. It will twist your heart strings most effectively, for it depicts, not the love of a northern soldier for the southern girl, but love between a dear little girl for her rebel daddy, who saw her mother die, and their home burn, lives alone and hungry in a little cabin on the mountain side a few miles from Richmond. Her father comes on one of his hunted visits to see his child; he has been pursued and is wounded. A detail of cavaliers under command of Lieut. Col. Morrison surround the cabin and the scout hides in a loft. The door is battered down, and the northern soldiers, instead of finding the dangerous scout, discover a little girl sitting alone at a table, playing with her rag doll. With arch baby talk and adorable courage she fools the Yanks, but she is outwitted by the gentlemanly colonel, who discovers the hiding place of her father.

Through the idea of the little girl the colonel relents and furnishes Cary with a pass as escort for the little girl through the federal lines in Richmond.

Later in the day a battle ensues, in which Cary saves the life of the northern colonel. They are betrayed and brought to headquarters as prisoners, Cary as a spy and Col. Morrison as a traitor. The littlest rebel, as Virgie is called, appears before General Grant and pleads for the lives of both men. So clever and sympathetic is her plea that the general becomes interested and makes a personal investigation of the case, upon which the men are pardoned.

Orpheum Theatre. The first half of the week at the Orpheum theatre is being filled by Sam Beechum's Daffydill Girls, a company which, while not up to the standard of the two previous shows, is nevertheless pleasing in many parts. The crowds were large yesterday afternoon and evening and while there was a slight hitch in the opening of the show yesterday afternoon, owing to the late arrival of the company, the show went smoothly and the performers worked hard to please. The best number on the bill was the rendition of the Highland Fling by Miss Bernia and chorus. Dick Wilson sang well, as did Miss Harris. Barney Duffy and George Bartlett, as the detectives, furnished the fun for the piece and gave very good satisfaction. The motion pictures were above the average in quality. The company continues until tomorrow evening.

"Robin Hood." It is twenty odd years since "Robin Hood" was written by Reginald DeKoven and Harry B. Smith, and since then both composer and librettist have written many other successful works, but "Robin Hood" stands pre-eminent in the affections of both the authors and the public. Although the operetta has been played more than 10,000 times in this country and uncountable times around the world, it is only in the zenith of its popularity. Such musical gems as "Brown October Ale," "Oh Promise Me," "It Takes Nine Tailors to Make a Man," "The Legend of the Chimes," "The Armorer's Song," and "When a Maiden Weeds" will be sung forever, but it is doubtful if ever again such voices will be heard in their interpretation as announced in the big revival to be brought to the Schultz opera house, Zanesville, Friday, March 4.

The DeKoven Opera Company comes to Zanesville after a remarkable six months' engagement in New York and a recent successful engagement in Chicago. Manager Daniel V. Arthur has brought together a company of one hundred, including many of the best known stars of Europe, as well as several famous stars of musical comedy to interpret the lighter roles. The chorus was selected from the grand opera organizations of New York, Boston and Chicago, and the stage settings built on a scale never dreamed of in the days of the famous old Bostonians. So notable is this production that it may be said to fairly mark an epoch in the history of light opera presentations. From the Metropolitan opera house are Bessie Abbott, soprano; Henrietta Wakefield, contralto, and Herbert Waterous, basso. Walter Hyde, the tenor, a protégé of Hans Richter, was for four seasons the tenor star at Covent Garden, London. Other members of this notable cast are Anna Bussert, a beautiful soprano who comes to us from Berlin; Carl Gantvoort, baritone, late of the Boston Opera Company; Frank V. Pollock, of the Metropolitan; Geo. Frothingham, the original Friar Tuck, which role he has played 1000 times; Edwin Stevens, famous as a singer, comedian and dramatic actor; Pauline Hall, the star of "Erminie" and numerous other successes; Sylvia Van Dyke, a brilliant young English soprano; Philip Sheffield and Dorothy Arthur.

The present production of "Robin Hood" is of particular interest to the new generation of theatre-goers—those who have never before heard this American classic, for it is being presented on a scale that in all probability will never again be attempted.

Are You Constipated? If so, get a box of Dr. King's New Life Pills, take them regularly and your trouble will quickly disappear. They will stimulate the liver, improve your digestion and get rid of all the poisons from your system. They will surely get you well again. 25c at F. D. Hall's.

Black Silk Stove Polish Works. Be sure to get the genuine. Black Silk Stove Polish costs you no more than the ordinary kind. It does not do it better than any other stove polish you have ever used. Your dealer is authorized to refund your money. But we feel sure you will agree with the thousands of other up-to-date women who are now using Black Silk Stove Polish and who say it is the "best stove polish ever made."

LIQUID OR PASTE ONE QUALITY. Be sure to get the genuine. Black Silk Stove Polish costs you no more than the ordinary kind. It does not do it better than any other stove polish you have ever used. Your dealer is authorized to refund your money. But we feel sure you will agree with the thousands of other up-to-date women who are now using Black Silk Stove Polish and who say it is the "best stove polish ever made."

GIRLS! GIRLS! SURELY TRY THIS! DOUBLES BEAUTY OF YOUR HAIR

All you need is a 25 cent bottle of "Danderine"— Hair gets lustrous, fluffy and abundant at once.

Immediate?—Yes! Certain?—less, whose hair has been neglected or scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use of Danderine, when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft, hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

A delightful surprise awaits, particularly those who have been careless.

AGRICULTURAL COMMISSION BILL.

Senator John Cunningham, of Knox county, and Representative W. M. Brown, of Ashland county, chairmen of the committees on agriculture of both houses of the general assembly, have issued a joint statement in which both declare in favor of the Agricultural Commission bill, which provides for a consolidation of all the agencies of state government that are engaged in agricultural activities or pursuits closely allied to that science. Both men are successful farmers and both have been for years active leaders in movements to better the conditions of agriculturists.

"Wherever the people understand the provisions of the bill for the proper co-ordinating of the energies of the different agricultural departments, the sentiment is always overwhelmingly with Governor Cox and members of the general assembly from the agricultural counties, who are actively supporting the measure," say Senator Cunningham and Representative Brown.

"The only opposition which could possibly develop to this proposed plan must necessarily come from some paid lobbyists in the interest of some political organization," continued the two. "The program for the unification of the state authorities for better agriculture in Ohio commends itself to all men genuinely interested in developing the agricultural interests of the state. There is no reason why there should be a division of effort in this work, and duplication and even tripling of effort should be eliminated."

"The state farmers' institute has gone on record in favor of the general purposes proposed in this bill. The institute adopted the following: 'We favor the co-operation of agricultural promotion work in such manner as will eliminate duplication of work and such waste of effort or expenditure of public funds.'"

"The agricultural papers were right when they intimated Governor Cox in this movement and said: 'He is honest and sincere in his efforts to promote efficiency in every agricultural department and we feel confident that no interest will have any cause to fear as a result of the proposed change.'"

TAX COMMISSION BILL.

The Tax Commission bill, revising the taxation laws of the state is about ready to make its appearance. It is ready for introduction, and the Tax Commission is to be given credit for making its provisions known in advance of its introduction. The Commission has had the bill printed in book form, with explanations following each section and these have been widely distributed. This is a new departure during the present session as on all other important measures there has been so much secrecy and so many conferences and committee meetings behind closed doors, that people were kept in the dark as to the provisions of important bills until they were about ready to be acted upon in committee, affording no one an opportunity to protest in case

THE NEW DEMOCRACY TAKES HOLD TODAY

Today the people of the United States witness the inauguration of the first real Democratic President since the days of the Civil War.

Woodrow Wilson takes the great Executive office and surrounds himself in his official family with the eminent and trusted leaders of his party.

That there will be great returns in the interest of good government, the betterment of the popular masses on progressive lines and the carrying out of the humanitarian promises of Mr. Wilson and his party in the late memorable campaign, goes without the saying.

The time was ripe for the radical changes in American politics for which the people voted when they cast their ballots on last election day.

There will be opportunities for much comment as the new administration takes hold of the affairs of state.

It can be predicted with absolute certainty that there will be none of the mistakes of the last administration of Grover Cleveland.

The new Democracy is not only progressive but it has assumed its responsibilities with a consciousness that means it has come to stay.

they desired to do so. This bill carries out the Harmon idea for the appointment of personal tax collectors in the various taxing districts of the state. These tax collectors are to be appointed by the governor. In this respect it is the same as the Edwards bill which was defeated two years ago, some members of the Assembly taking the position that it put a political machine in the hands of the governor.

These district assessors are given authority to appoint a sufficient number of deputies to enable them to do the work. The district assessors are to serve for an indefinite period, the Commission arguing in favor of the indefinite term, that "it is folly to expect the work of assessment to be done efficiently by an officer holding a definite term subject to re-election." The bill widens the scope with respect to the valuation of the property of public service corporations.

FIRST THINGS

CONQUEST OF MEXICO.
The first of the long series of wars that have made Mexico, for nearly four centuries, a land of bloodshed and strife, had its beginning 374 years ago today, March 4, 1519, when Hernando Cortes landed on the coast and began the conquest of the Aztec empire. The party of Cortes consisted of about 20 Spaniards, and their fleet consisted of ten vessels. The ships, the horses, and the roaring, death-dealing cannon, all new objects to the natives, spread awe and terror among them, and they regarded the Spaniards as gods. By force and treachery Cortes destroyed the ancient empire of the Aztecs and looted upon unhappy Mexico the Spaniards' box of evils which have not yet ceased to plague the land. The Indians were enslaved by Cortes and forced to exploit the mines and other natural resources to gratify the cupidities of their conquerors. Gradually Cortes was shorn of his power over "New Spain" and died in 1547, after years spent in solitude and poverty. Mexico remained a Spanish possession until 1821, when Iturbide established his short-lived empire, followed in 1822 by the republic.

March 4 In American History.

- 1789—The United States constitution went into effect. At the meeting of congress there was not a quorum, and no business could be transacted. The government was without an executive head.
- 1882—Alexander H. Stephens, vice president of the Confederate States of America, died, born 1812.
- 1888—Amos Bronson Alcott, noted New England poet and philosopher, died, born 1799.
- 1909—Inauguration of William Howard Taft, twenty-seventh president of the United States.

Cures all blood humors, all eruptions, clears the complexion, creates an appetite, aids digestion, relieves that tired feeling, gives vigor and vim.
Get it today in usual liquid form or chocolate tablets called Sarsatabs.

SAYS IT REQUIRED ONLY SMALL AMOUNT TO CONVINCE HER

Can Now Do More Work Than She Has Been Able To Do in Fifteen Years.

Too many people make the mistake of treating the symptoms instead of the cause. They get temporary relief from the local trouble but the diseased condition, which was originally the cause, is allowed to get worse and worse. It is particularly true in the case of people suffering from catarrhal affections of the mucous membrane.

Owing to the wide-spread nature of this disease, the symptoms are liable to appear in many parts of the body and the patient is being able to determine why the pain should appear, immediately relief for the symptoms only. And this is the case in the majority of the testimonials received.

Mrs. Sarah Her, of New City, O., recently stated:
"I have been a constant sufferer from rheumatism for years. I have tried different treatments and remedies without any success. I was, however, by accident, cured of my rheumatism and resolved to try it. I only required a small amount to convince me of its merits. I have taken but a few bottles and can truthfully say that my rheumatism has almost disappeared and I can do much more work now than I have been able to do in the past 15 years. It has nearly recom-mended."

The first remedy which Mrs. Her tried having failed to bring permanent results because they were only treatments for the symptom. Vir Hepatica gives quick relief and also brings about permanent results by freeing the mucous membrane of catarrhal affections. A few of the many symptoms that may denote catarrhal affection are the following: Nervousness, dry cough, pains at the base of the spine, itching, feeling of depression, drowsiness, constant coughing, dryness in the throat and mouth, acute pains in the joints or a general tired feeling.
Vir Hepatica is sold only through exclusive agents. T. J. Evans has this agency in Newark.

INVENTOR OF THE SHEPHERD SAFETY DEVICE

Local Man Has Patent on Safety Signal System Which May Minimize Danger to Traveling Public.

Herewith is a reproduction of a photograph of M. L. Shepherd of No. 4 Channel street, a well-known B. & O. machinist and the inventor of the "Shepherd Safety Signal System."

Mr. Shepherd is a practical mechanic and has had much railroad experience which enables him to know the great need of his invention as a safety device to the traveling public and railroad officials are becoming more interested day by day as this device is being examined by competent and experienced rail-

M. L. SHEPHERD.

road men. Dr. M. Smith of this city, the well-known physician and surgeon, has purchased a one-half interest in the device.

All railroad men who have examined the Shepherd device say that it is the best proposition for safety device that they have ever seen. Mr. James Dwyer, the well-known engineer on the B. & O. says:
"In view of the many accidents and the possibility of the Interstate Commerce Commission not to make any law but highly recommend the adoption of a safety device to stop trains, we have here in Newark a device, patented by M. L. Shepherd. In my judgment it is far better and simpler than anything yet patented."

This device consists of a raised plank in the track near the rail, that raises and lowers the train line and allows for service application at low speed. Attachments in the cab can be controlled by the engineer, or it can be made to stop if he so desired. It also blows a whistle and sets off the throttle. It can be started by a lever to raise and lower the plank, electrically or by hand. The man in the tower or other. This device can be installed with very little expense; the plank in the track consisting of a sheet of steel, light or heavy, from any boiler or shop, and the lever attachment to the target; and a little pipe under the engine connected to the train line with the lever on it; this lever up in the cab to be attached to the whistle and throttle

and can be controlled by the engineer, after the brakes are automatically set, but not before.

"In my judgment, this device is one of the greatest safety inventions outside of the air brakes, that has yet been invented and will pay any company to give it a test. Through my long years of experience of more than thirty-eight years as locomotive engineer and knowing the frailties of the human mind and am too old now for any sentimental ideas that we don't overlook danger. I feel that we need all the safe guards of protection as well as the traveling public behind us, that can be possible."

"I am engineer on trains 7 and 8, between Newark, O., and Benwood, W. Va. For reference, I can refer you to President Willard, Vice President Thompson, the general manager and all the general superintendents and most of the superintendents on the B. & O. railroad. I was chairman of the 'Engineers' General Committee from 1905 to 1910."

On November 13, 1912, the C. H. & D. railroad company met with a disastrous wreck, in which at least sixteen persons were killed and fifteen seriously injured. This wreck occurred at 3 o'clock in the morning, when an inbound C. H. & D. passenger train ran into an open switch and crashed 'head on' into a freight train at Irvington, a suburb. The train was coming from Cincinnati at the rate of forty miles an hour.

Most of the dead were found in the wreckage of the first car, which telescoped the baggage car. The engineer of the passenger train was found in the wreck, but the engineer of the freight train escaped by jumping. Mr. Shepherd says that in this event, his device would absolutely prevent such wrecks, as his device can be attached to any switch stand, when switch is thrown open, it puts the device in position to perform its duty of stopping trains, same as it would at any tower when the red block is displayed, thus making it utterly impossible for a train to reach an open switch. When the device is once installed, railroad companies will then realize and appreciate its valuation.

The present interested railroad companies, who are now in communication with Mr. Shepherd regarding his safety signal system device are carefully examining the proposition made by Mr. Shepherd, and will, no doubt, soon reach a decision. The proposition is only extended to the first road that will test and adopt the device, which will prove interesting to the road. No doubt the device will soon be worked out and will become the standard train control of the country.

Grip Germs Are Everywhere

The grip needs only a few days to wreck the health. In this short time it so thoroughly poisons the blood and every tissue of the body that the victim is prostrated. Every muscle and joint of the body aches, sleep is fitful and disturbed, and there is pain back of the eyes and in the head. The grip stays in the system for years unless the blood is cleaned and built up so that it can overcome the poison of the disease. People who do not take a good blood-building medicine after an attack of the grip are the ones who suffer for years.

Drive every trace of the grip from your system by taking Dr. Williams' Pink Pills. Mrs. W. H. Parker, of No. 96 West Union street, Newark, N. Y., who did this, says: "I was sick for two years following the grip and every one thought I was going into consumption. I trembled so that I could not sit still in a chair. My heart palpitated and I had to lie down most of the time during the entire year while I had the tremblings. I had headaches occasionally and lost a great deal in weight. I was not able to do much work and had no ambition. I had no appetite and my stomach was out of order. After two years I began to take Dr. Williams' Pink Pills. I felt that they were helping me before I had finished the first box. The trembling spells left and I was soon cured."

Dr. Williams' Pink Pills taken in time will save you much suffering and will soon tone up your system that you will enjoy the best of health. Write today to the Dr. Williams Medicine Co., Schenectady, N. Y., for their free booklet on "Building Up the Blood." Then go to your druggist and get a box of Dr. Williams' Pink Pills for 50 cents or better still six boxes for \$2.50 or order them direct by mail.

THE COST OF MOVING

is an additional burden that is thrown onto the shoulders of the man who rents.

Nor is the mere cost of moving all there is involved, for it involves injury to furniture and often refurnishing to some extent.

There is an old saying that "three moves equal one fire," and it is close to truth.

The home owner escapes this burden.

Why not begin now to give serious attention to this matter of home ownership?

With the easy payment plan of loaning money at 6 per cent interest which this association offers, it is practical for every thrifty, energetic family to secure a home and pay for it without hardship.

We are always glad to explain or suggest plans for those who will call here.

ADDRESSED TO WOMEN

IS YOURS A
Case of "Nerves?"

Hot flashes, dizziness, fainting spells, headache, bearing-down pains, nervousness—all are symptoms of irregularity and female disturbances and are not beyond relief.

Favorite Prescription

is that of a famous physician unusually experienced in the treating of women's peculiar ailments. For forty years it has been recommended to suffering womankind. Thousands of women can bear witness to its beneficial qualities. Perhaps its aid is all that is required to restore to you perfect health and strength. Now is the time to act, write Dr. R. V. Pierce's, Buffalo.

I AM NOW CURED

Mrs. Dominic Rogers, of San Francisco, Calif., writes: "I take pleasure in recommending your wonderful remedy, and wish to say in behalf of your 'Favorite Prescription' and 'Liquid Medical Doctor' that through their use I have been cured of the various troubles that a woman is heir to. These troubles cured me a woman's friend and I therefore resolve to take no other. I thank you for your advice."

THE HUMAN PROCESSION

By O. Terrence

Robert Lorraine Celebrates 12th Anniversary of American Debut.

Few actors have gained such widespread popularity on both sides of the Atlantic as Robert Lorraine, who will today celebrate the twelfth anniversary of his American debut. Born in England, he was the son of the late Henry Lorraine, a tragedian of considerable ability. Beginning his theatrical career in "the provinces" in 1888, many years passed before the actor faced a London audience. His metropolitan premiere was in "The Prisoner of Zenda." In 1896, he was beginning to make a London reputation when the fretful Deor began hurling defiance and bullets at the Britishers in South Africa. The young actor heard the call of his country and enlisted as a volunteer, and became a part of the "thin red line" that faced the Boers in many spirited engagements.

After the cruel war was over, Mr. Lorraine embarked for America, making his first appearance on this side of the Atlantic in "To Have and to Hold" at the Knickerbocker theatre in New York, March 4, 1901. He returned to London to take part in a revival as Henry V. His next American appearance was in "Pretty Peggy," with Grace George. It was not until 1905 that he broke into the front rank of actors as John Tanner in "Man and Superman." Season after season he continued in that play, on both sides of the broad brim. The play was made for him, and seven years passed before he considered a new drama.

Sir Swire Smith, the eminent British authority on technical education, will pass his seventy-first milestone today. Sir Swire recently visited America and inspected several institutes of technology, of which he spoke

in terms of highest praise.

Dr. William Norman Guthrie, rector of St. Marks-on-the-Bowery, one of New York's oldest churches, is a native of Dundee, Scotland, where he was born forty-five years ago today. The Rev. Guthrie recently attempted the role of dramatist, and his play, "The Feast of Frey," a symbolic drama of the pagan savans, was produced at the Waldorf-Astoria. Dr. Guthrie is famous as an educator, and has been a member of the faculties of the University of the South, Kenyon College, the University of Cincinnati, and the University of Chicago, as well as rector of Episcopal churches in Cincinnati, Alameda, Cal., and New York. He is the Author of several volumes of verse and prose.

"Forty Years Of It" is the title of one of the most interesting autobiographies of the century. It is the work of Brand Whitlock, author, reformer, and mayor of Toledo, who was born in Urbana, Ohio, forty-four years ago today. As a newspaper reporter in Toledo, Chicago and other cities, and as lawyer, reformer and associate of men of genius, Mayor Whitlock has lived a life that has had not a dull day in it.

Dr. Edward Goodrich Acheson, inventor of carborundum, silicoxide, Egyptianized clay and an improved kind of graphite, was born in Washington, Pa., fifty-seven years ago today, and in his youth was an assistant to Thomas A. Edison. He has recently lectured on his scientific discoveries before many of the learned bodies of Europe, by whom he has been highly honored.

GRASS SEED FOR
SPRING PLANTING
ON OUR LAWNS

(By Prof. Graham, O. S. U.)

"What am I going to sow for my lawn?" is a question that is demanding the attention of city folks at this time of the year, as well as their country cousins who are awakening to the necessity of having the home surroundings as comfortable and pleasing to the eye as possible.

Prof. Wendell Paddock, of the horticultural department, College of Agriculture, Ohio State University, advises the good, old-fashioned blue grass lawn, declaring that it will not only look well, but can be kept comparatively free from weeds with a little care.

"Mix your lawn seed at the rate of thirty or forty pounds of blue grass to five or six of white clover," he recommends. The white clover will mat over for the first year, and prevent the weeds from getting in. This will allow the blue grass to get a firm hold the first year, and the second season the clover will be crowded out and a strong-rooted, level lawn can then be easily maintained.

For old lawns, which are beginning to show signs of neglect, too

much emphasis cannot be laid upon a necessity of application of manures and commercial fertilizers. The soil is also apt to become acid, and this can be corrected by the application of small quantities of lime from time to time. Stable manures can be put on the lawn at any time without deterring the growth of the grass.

The horticulturist advises that the seed be sowed heavily during the first season. One quart of blue grass to every 300 square feet of lawn is considered a fair rate for planting. The second season, if desired, the same mixture may be sowed, but in less quantity.

"Nothing is more encouraging than to see a well developed lawn surrounding a home," adds Prof. Paddock. "Many a home that would be otherwise very disagreeable to look at, has assumed a new appearance, simply because its owners have cared for the surroundings. Have the lawn green and level and do not spoil the effect by planting a lot of shrubs in the middle of it. Put your shrubs and flowers around the edges as a sort of border for the picture. Artistic arrangement of walks, flower plots, shrubs and trees will do much to improve the scenery of more than one country or city home."

Cleveland has decided to excavate for its electric lighting plant because of delays on the part of a contractor.

CUT IN SUGAR;
BIG DEMAND
OVER CITY

Welcome to the housekeeper, at least, will be the news of a big cut in the price of sugar. It is said that within the past few days the wholesale price of sugar reached the lowest point that it has touched in 15 years. Sugar was sold at wholesale in Newark at 4.2 cents per pound, less the customary 2 per cent discount for cash, or a spot cash price of 4.12 cents a pound.

The effect of this was noted locally on Saturday, when a big drop in a wholesale house permitted several grocers in the city to offer 25-pound sacks of sugar for \$1.19, the lowest it has been for years. In some of the stores it was impossible to fill all the orders, as the supply ran out. However, it was boosted back to a standard price of \$1.25 a sack today, the special sale being just for Saturday.

Hearty Meals
Easily
Digested

Mi-o-na not only gives quick relief but makes the stomach so strong that it can digest with ease any kind of food.

The very worst and most stubborn stomach can be put in tip top shape in a short time and no remedy will do it quite so thoroughly or speedily as MI-O-NA Stomach Tablets.

People who are always worrying about their stomach and what not to put into it are wasting time and missing much of the pleasures of life.

Go to your pharmacist today, hand him 50 cents, get a box of MI-O-NA and take it as directed for just one week. Then if you think for any reason whatever, that MI-O-NA Stomach Tablets have not done you the world of good get your money back.

REV. J. M. THOMAS
ELICITS PRAISE
ON FINE SERMON

Rev. J. Morrison Thomas, D. D., former pastor of the Plymouth Congregational church, now at Ravenswood, a Chicago suburb, has already been recognized as a preacher of unusual ability by the members of his church as well as the community in general. An extract from the Ravenswood Citizen, printed at that place, in speaking of the sermon delivered Sunday, February 23, comments as follows:

"We think it will not be putting it too strongly when we state that Dr. Thomas preached two sermons last Sunday than which none better were heard. We venture, in any pulpit in Chicago, excepting none. For thought, language, diction and delivery they could not have been excelled. When some of these habitual non-church-goers of Ravenswood wake up to the fact that there is a pulpit orator of unusual ability in town they will shake off their lethargy and come out to hear him, and to hear him once will be to hear him always. In the language of his evening theme had they heard the sermon, they would have gotten 'Life—and More of It.' His sermons appeal to one's intellect and at the same time reach the heart. Two indispensable qualities to any good sermon."

INAUGURATION

Oh, Woodrow and all the patriots on this fateful day, when Washington's in brave array, are there to see you take the honored chair, we know your resolution's strong to help the right and swat the wrong. We know that you have hopes and dreams of better things, and now schemes—long may your hopeful dreams endure! To care the rich and help the poor, and see that Justice never fails to use the right weights on her scales. We state-at-homes who couldn't run to Washington to see the fun, who play the old bread-winning game, are praying for you just the same; we're hoping, as our chimes we do, that every dream of yours comes true, that all the gods may for you fight, and bless your effort to be right. The shade of Washington, no doubt, is at your side or thereabout, the shade of Lincoln stands with smiling lips and blessing hands, the shade of all the good and great who brought us land to such estate will walk with you this long day through and hope your dreams may all come true.

SUMMIT STATION.

The great day of the inauguration of Woodrow Wilson, President of the United States, will be a day of great interest to all who are interested in the progress of the nation. The inauguration will take place at the Lincoln Memorial in Washington, D. C., on Monday, March 4, 1913. The ceremony will be presided over by the Chief Justice of the United States, Mr. William Howard Taft. The President-elect, Mr. Woodrow Wilson, will be sworn in by the Chief Justice. The ceremony will be a grand affair, and will attract thousands of people to the Lincoln Memorial. The inauguration will be a day of great significance in the history of the United States, and will mark the beginning of a new era in the nation's history.
